This is IBEW, Local No 1's Directory for Union Made Goods and Services.

Please browse our list to find what products, services, entertainment and travels are union. This list is built from sites of our sister unions. Some unions have great lists while some lists are not as informative. This results in our list being a constant work in progress. If you know of other merchants or products that should included in this list, please forward the information to Financial Secretary, Jim Douglas at IBEW, Local No. 1

Please also note:

Some companies also manufacture products in other countries so please check the country of origin before making your purchase.

These vehicles are made in the United States or Canada by members of the UAW and Canadian Auto Workers (CAW). Because of the integration of United States and Canadian vehicle production, all of the vehicles listed that are made in Canada include significant UAW – made content and support the jobs of UAW members.

However, those marked with an asterisk (*) are produced in the United States and another country. The light-duty (LD) crew cab versions of the vehicles marked with a double asterisk (**) are manufactured only in Mexico; other models are made in the United States.

When purchasing one of these models, check the Vehicle Identification Number (VIN). A VIN beginning with "1" or "4" or "5" identifies a U.S. made vehicle; "2" identifies a Canadian made vehicle.

Not all vehicles made in the United States or Canada are built by union represented workers. Vehicles not listed here, even if produced in the United States or Canada, are not union made.
